

Task 1 - Today we will be focusing on the word:

**natural**

What do you think **natural** means?

The word **natural** means not made by people. So we know that...

The ocean is **natural**.

People did not make the ocean.

Look at these pictures...

- What can you see?
- Is this **natural** OR not natural?
- Talk about how you know it is natural or not natural

# mountains

# desert

# shops

# volcano

house

# forest

river

Task 2 - Now we will look at what

**physical geography** means.

**Physical geography** is the Earth's **natural**

features, for example, rivers, lakes, mountains,

deserts, forests, beaches, cliffs and many more!

Task - Which pictures show **physical geography**?

Circle the pictures that show physical geography

Challenge! Which pictures do not show physical geography? How do you know?

Task 3 - Today we will be looking at 3 physical features in India.

## 1. The Himalayas

The Himalayas is a mountain range in Asia. It is the highest in the world!

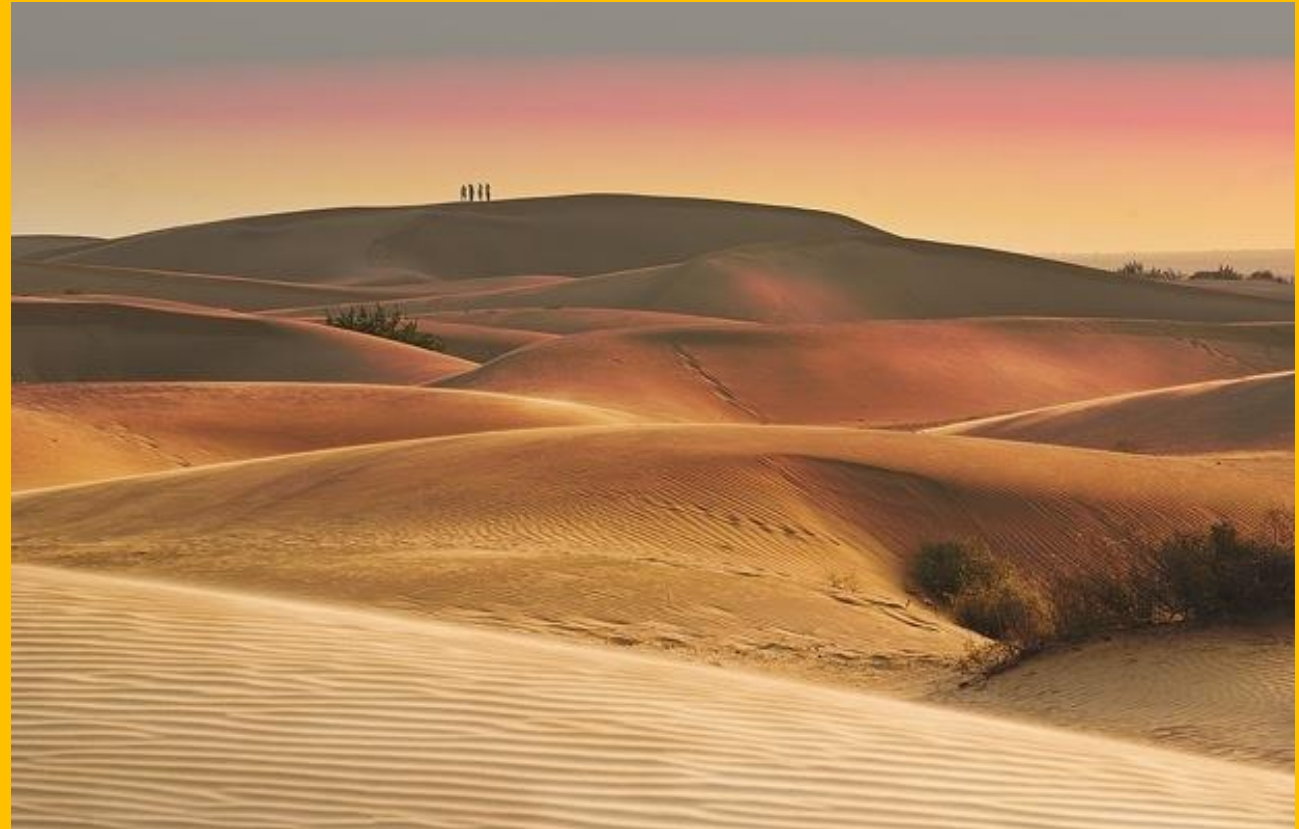

The word Himalayas means "house of snow".

## 2. Thar Desert

The Thar desert is also known as the **Great Indian Desert**.

People go on camel rides in the Thar Desert.

### 3. Ellora Caves

These rocks have been in India for years and years.

There are lots of temples inside the Ellora caves.

You can see loads of carvings in the rocks such as patterns, Hindu gods, the lotus flower and even elephants!

# Task!

- Choose one of these physical features in India.
- Have a go at drawing either the Himalayas, the Thar desert or the Ellora Caves.
- See if you can write some sentences about each one!
