- Mass:
-
- Volume:
-

This week's focus in writing will be about the picture below called isolation (see word document for a larger size picture)

Many people from the mainland thought the Smiths were a strange family.

Sure, life out here on the island was very different. For a start, they didn't get their groceries from a supermarket, or visit the local pizza restaurant on a Friday night for a treat!

The weather up here could often be quite dramatic, even frightening. They frequently felt like the world was against them, yet they somehow found a way to harness nature's offerings.

It may be far from what most people would call 'civilisation', but it suited the Smiths just fine...

Question time...

	<p>How might the Smith family's lives different to the lives of the people on the mainland?</p> <p>Would you rather live here or on the mainland?</p> <p>What do you think it means by 'nature's offerings'?</p> <p>What do you think the weather is like up here?</p> <p>Do you think there are places like this in Britain?</p> <p>How long do you think this house has been standing here for?</p> <p>Why do the Smiths choose to live here do you think?</p> <p>Sentence challenge</p> <p>Can you place the missing bracket in the sentence below?</p> <p>The Smith family (who liked to keep themselves to themselves had been living here for generations.</p> <p>Can you write a sentence containing brackets?</p> <p>What might a typical day look like for the Smith family?</p> <p>Can you draw a series of pictures that demonstrate what the family get up to on a typical day? You could use a comic strip to present your drawings.</p>
--	---

Learning Projects to be done throughout the week

Science

This week's focus will be all about gestation periods. Gestation is the period of time that a woman or animal carries her offspring, or babies, inside her body before giving birth.

- Complete the attached worksheet to understand the life processes of animals
- Use secondary sources to make comparisons and draw conclusions

- Look for patterns in the data shown

Geography

This week we would like you to research and explain the following...

- Mountain
- River
- Volcano
- Earthquake

Can you explain what each one is?

What are the similarities?

What are the differences?

What impact does each one create?

Present your findings in a create way, you could make a poster, fact file, PowerPoint, etc.

Share your creations on our school twitter page.

Use the pictures below to help you.

French

This week we will be focusing on different foods and drinks in French and attached is a power point that will help you to learn the different names. Have a go at completing the following activities...

- French food matching activity
- French food board game

Important notice!

Please see the attached video link as this will help you when applying for a secondary school for your child.
