Digital Art

Digital art is using a computer or other device to create a piece of art.

screen cursor

- The piece of art can be created on an App or on a program on a computer.
- Using the mouse or trackpad you can create a picture by drawing with the on-

Using a mouse or trackpad

A mouse or trackpad is an input device that is most often used with a computer. Moving a mouse or moving your finger on the trackpad can

move the on-screen cursor to the different items of the screen.

The cursor is the arrow or pointing finger that appears on the screen.

Internet

The internet is made of computers connected to each other around the world. Words and pictures can be sent from one computer to another. You can look at words and pictures from a computer on the other side of the world. When you use websites and some apps, you are using the internet.

Presenting information

Word or Publisher software can be used to present information. The skills of copying and pasting will be taught alongside searching the internet for the relevant information.

Online Safety

Children will learn how to stay safe online

When you are online there are lots of exciting things to find out and play.

Online safety is learning how you can keep yourself safe when on the internet and what to do if you need help.

Your personal information is all about you - your name, where you live, what school you go to.
