

Can you write the 6 numbers in the sequence - using the rule and the starting point?

1. The rule is add 10, the start-point is 15

--	--	--	--	--	--

2. The rule is add 5, the start-point is 37

--	--	--	--	--	--

3. The rule is add 3, the start point is 19

--	--	--	--	--	--

4. The rule is add 9, the start point is 25

--	--	--	--	--	--

5. The rule is add 100, the start point is 394

--	--	--	--	--	--

Extension:

Create your own sequences of 6 numbers and ask a friend to work out the rule.
