

NURSERY TO YEAR 3

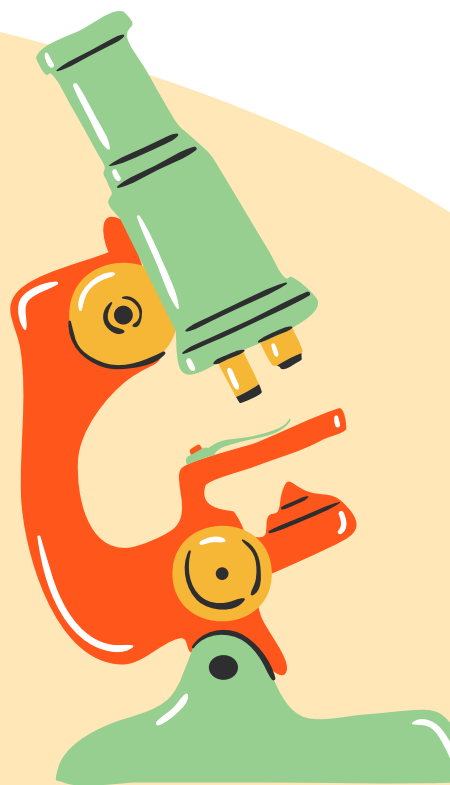

SCIENCE WEEK POSTER COMPETITION

Can you create a poster about changing and adapting? It could be about you or something in the world. It could be about something you have learned about in science. Be creative!

The best five entries will be entered into a national competition.

More info overleaf.

Entries must be handed into school by
Monday 24th March.

Think about what change and adaptation means to you.

- How have you changed or adapted to new experiences and places as you have grown?
- How do plants and animals adapt to a changing environment?
- Technology changes all the time - how is it changing our lives and is it always for the better?

Posters must be A4 or A3 in size. You can use pop-up pictures, pull out tabs or create with pencils, paints - the choice is yours.

Photographs of the winning posters will be taken and sent into the national competition.
