

Dragon Caves: Area

Year 4 Area and Perimeter

Marvin the magical explorer is mapping the caves of different dragons from around the world. They go on for miles! Help Marvin by calculating the area of each dragon's cave. Each cave is measured in square kilometres (km^2).

1.	The Chinese Sharp Claw						2.	The Russian Ridgeback			Area =	<input type="text"/>	km^2	
	Area =						<input type="text"/>							
3.	The Mediterranean Fantail						4.	The Welsh Red						
	Area =						<input type="text"/>							
5.	The African Fireball						Area =						<input type="text"/>	km^2
	Area =						<input type="text"/>							

Dragon Caves: Area Answers

Year 4 Area and Perimeter

Marvin the magical explorer is mapping the caves of different dragons from around the world. They go on for miles! Help Marvin by calculating the area of each dragon's cave. Each cave is measured in square kilometres (km^2).

1.		2.	
	The Chinese Sharp Claw		Area = 24km^2
	Area = 16km^2		The Russian Ridgeback
3.			
	The Mediterranean Fantail	4.	The Welsh Red
	Area = 27km^2		
5.			Area = 21km^2
	The African Fireball		Area = 27km^2
