

## **The Lodge @ Uplands Manor**

'Our Vision'

The Lodge is a 20-place SEND unit for children with Severe Learning Difficulties and who are supported by an Education, Health and Care Plan (EHCP). Children who occupy a place in the unit will start their Uplands journey completing all their learning within the unit. However, as they progress, there will be opportunities to complete elements of their learning alongside their peers in the mainstream provision where appropriate. We aim to create an environment that supports children to push the boundaries and is aspirational for what they can all achieve.

Our vision is to create a stimulating, inclusive and nurturing environment where all children can learn and develop their skills socially and academically. We endeavour to provide the highest quality teaching and learning that enables all children to thrive and progress within their personalised curriculum by using the 'Orchard Small Steps Framework'. We have a holistic approach to developing the children as individuals through working on life skills, communication, independence and relationships alongside their curriculum learning in order to prepare them for adulthood. All achievements are celebrated.
