

PSHE

- Create a food diary for a week and write down what food groups they belong to
- Design a fitness programme for a friend in the class
- Create a newsletter about medicines.

• Geography

- Research climate change around the world
- Create a debate on How will climate change affect our lives in 20 years time?
- Create a climate change speech on your own views

Year 6

Home Learning Projects

Curriculum Home-work

A variety of activities for you to complete either on your own or with your family.

Home learning books have been sent home for activities to be completed in.

• Science

- Create a fact sheet about the heart and the circulatory system
- Label the parts of the body and describe their function
- Research your favourite animal and create a non-chronological report

Music/Art/Drama/DT

- Write a song to perform
- Create a piece of art work
- Write a play script about moving to secondary school.
