

## Design and Technology

Choose one project to design, make and evaluate:

### Extreme gaming

Create a board game using ideas from our 'Earthquakes & Volcanoes' topic. Board game templates are available online or we can happily print one off for you to use.

### Safe building

Design a new building which is capable of surviving a specific natural event.

You could create a model, draw your design, use a computer program or any other way that you can think of to present your ideas.

## Geography

Find out about five different volcanoes.

*How tall are they?*

Present your findings on a bar graph. You could also colour in the county where each volcano is located on a

## Year 4

# Home Learning Projects

This half term's projects focus on:

**Earthquakes and Volcanoes**

**To hand in by: 18.12.2020**

## Art

Create a 3D model representation of a volcano. This could be created using clay, papier-mâché or any other 3D items you can think of.

## PSHE

### Evacuate

All of your family and pets are un-hurt but you have been told to leave your house.

***What ten things would you choose to take with you and why?***

## English

### 1. Setting description

Imagine you are watching a volcano erupt. Describe what you can see, hear, smell and feel. Remember: use all of your senses and interesting vocabulary!

### 2. Presenting the news

Imagine that you are a news presenter.

Write down at least five questions which you would ask someone who has survived a natural event such as an earthquake, volcanic eruption or flood.
